Updated 5/30/2024

The Land Surveying program provides a total of 13 credit hours of Land Surveying Coursework for students to choose from to meet the education requirements to become licensed as a Land Surveyor in the State of Iowa. This coursework is intended for students who already have an associate or bachelor's degree in a program containing mathematics, basic science courses, and practical experience.

9 credits are required to earn the Land Surveying Certificate, if that is your goal. You may pick and choose (ala carte) style what classes you wish to take to best prepare you for Land Surveying licensure. Faculty will work with you to choose the options best suited to your needs.

Face to Face (F2F) days are noted below. These F2F days will be on Boone Campus, 8:00 a.m. - 5:00 p.m.

Spring Semester Options, 8 credits

		F2Fpre or coreq?	# of Days	CREDITS
CET130	Surveying Fundamentals (5-week course)		4	4
CET180	Engineering Surveying (5-week course)	CET 130	3	4

Fall Semester Options, 4 credits

		F2Fpre or coreq?	# of Days.	CREDITS
CET 265	Land Surveying (8-week class)	CET 180	0	3
Option	CET 275, LS Fundamentals Exam Prep		2	1
	CET 295, PLS Practical Exam Prep		2	1

Completion of 9 Credit hours will earn you the Land Surveying Certificate
