

30-Hour Basic Wastewater Treatment Workshop

November 9-10 & 16-17, 2021, 8:00am – 4:30pm

North Iowa Area Community College, Pappajohn Business Center, Room PC117
500 College Dr, Mason City, IA 50401

Cost: \$625

This class is for entry-level and current grade I or II operators. This class, along with 6 months experience will satisfy the eligibility requirement for the Iowa DNR Water Treatment Grade I and is a good review for anyone planning to take the Water Treatment Grade II or III exams. Approved for three CEUs for Water Treatment. The course objective is to provide operators and managers with the knowledge, skills, ability, and judgement essential to safely operate and maintain their facilities as well as manage their facilities using appropriate financial strategies. Provides a solid foundation and builds on knowledge about water sources and characteristics, math, hydraulics, pumping stations, flow measurement, preliminary treatment, primary treatment, secondary treatment, disinfection, sampling and lab, safety, administration, laws and regulations. Bring a good calculator, your IDNR Operating Permit, and recent monthly operating report. You must attend all sessions to get full credit. Textbooks included.

Registration Closes on Friday, October 29, 2021 @ 12:00 AM
